

BÀI TẬP LAP 6

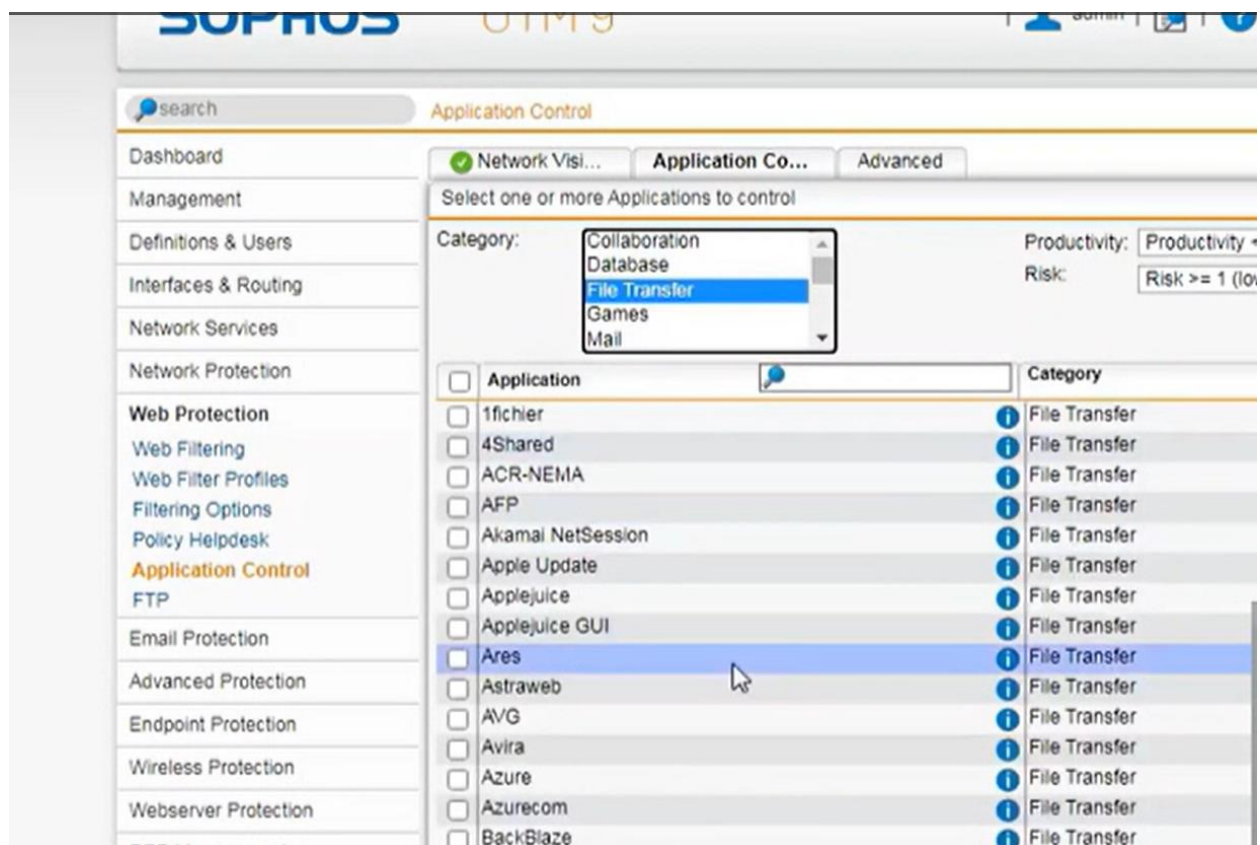

B1:

The screenshot displays the Sophos UTM 9 web interface, specifically the Application Control section. The left sidebar contains a navigation menu with options like Dashboard, Management, Definitions & Users, Interfaces & Routing, Network Services, Network Protection, Web Protection (highlighted), Email Protection, Advanced Protection, Endpoint Protection, Wireless Protection, Webserver Protection, RED Management, Site-to-site VPN, and Remote Access. The main content area shows a list of rules under the 'Application Control' tab. Three rules are visible:

- Rule 1:** "1 Câu 2. Cam truyền tập tin ((File transfer)". It is configured to block and log traffic for applications Dropbox and MediaFire from any source network.
- Rule 2:** "2 Câu 3. Cấm truyền tập tin FTP, không cho download Tor". It is configured to block and log traffic for applications FTPSDATA, FTPS, and FTP Data from any source network.
- Rule 3:** "3 Câu 4. Hạn chế người dùng sử dụng mạng xã hội:". It is configured to block and log traffic for applications Twitter, Google+, and Facebook Messenger from any source network.

Each rule has buttons for Edit, Delete, and Clone. The 'For' field for all rules is set to 'Source networks' with a dropdown menu showing 'Any'.

B2:

B3: Thiết lập bộ Chính sách kiểm soát ứng dụng & giải quyết các vấn đề

- Definitions & Users
- Interfaces & Routing
- Network Services
- Network Protection
- Web Protection**
 - Web Filtering
 - Web Filter Profiles
 - Filtering Options
 - Policy Helpdesk
